

Dear partners at HELIOS,

We trust this message finds you well,

We are reaching out to you regarding the launched Interreg - NEXT MED Green Transition program.

Specifically, we are eager to explore the possibility of collaborating with you as a **dedicated partner** if your organization is applying under this call as a lead applicant.

Leaders International is a network comprising locally registered NGOs operating across the **Palestinian Territories, Tunis, Jordan, and Belgium**. Our focus lies in spearheading projects centered on transitioning to a circular and resource-efficient economy, smart innovation, sustainable tourism, and fostering green economic growth.

Since our inception in 2004, our mission has been to foster innovative and inclusive green economies. A testament to our commitment, we have successfully managed seven projects under the ENI CBC MED program umbrella, among a plethora of other international development initiatives, with over 40 projects across various sectors.

We are keen to emphasize that our vast experience within the Next Med program uniquely positions us as a formidable partner for the upcoming NEXT MED initiative. Our proficiency in managing diverse projects under this program equips us to seamlessly integrate into your consortium, contributing our expertise in **Jordan and Palestine**, moreover, we are dedicated to facilitating your consortium's success by actively seeking out suitable **associate partners** in both countries.

Please find enclosed a dossier that introduces some of the projects we have led or partnered with, and we eagerly await the opportunity to discuss how our partnership can enrich your consortium's endeavors. Please feel free to reach out with any queries or further information you may require.

Thank you for considering our collaboration.

Warm regards,

Aseel Saied
